

HAIR LOSS STAGES:

Beginning: Hair loss begins in a diffused pattern on the top of head; minimal loss

Mid/Progressive: Hair loss has become more noticeable; scalp may have started crowning

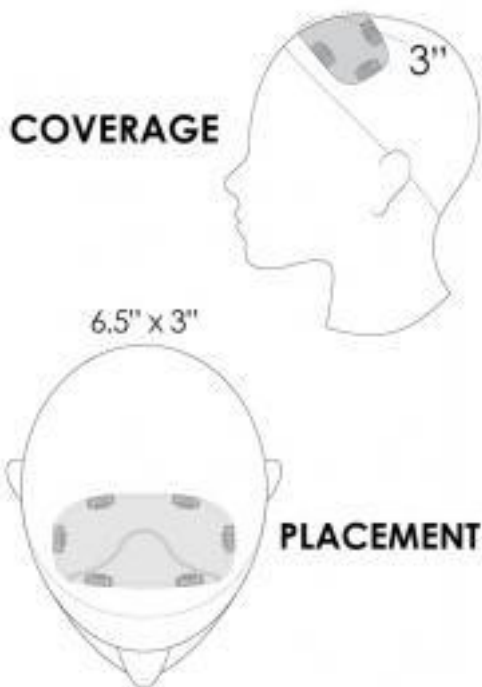

Advanced: Hair loss is very noticeable: scalp is exposed

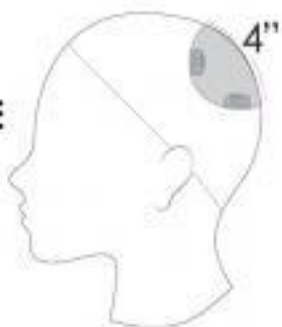

TOPPERS-Clip-ins

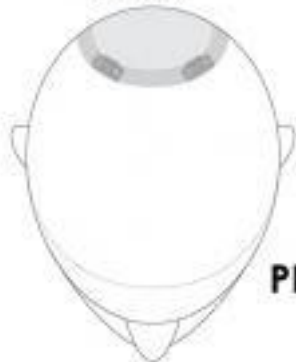

Toppers are designed to add volume to the crown or middle of the head without the need to wear a full wig. Also known as top pieces, hair enhancers, wiglets or clip-ins. Hair strands are attached to a cap or lace that is made from light breathable material. The cap is attached to the top or crown of the head using clips or adhesives. The lengths of hair will blend with your own to create a more thicker-volumized look.

Hair Lengths

Your hair length will bring a different look, style, feel and personality. Your hairstyle will change according to the length of hair you choose to wear. A short cut can bring out that Jazzy Diva. A medium length will often bring out the more graceful you. Long hair don't care will send you swinging from left to right and ready FOR THE WORLD.

WHICH LENGTH ARE YOU FEELING TODAY....

Wigs-Human Hair

Human Hair offers the most natural look and feel; the texture, shine and movement. Its versatility allows units to be styled to suit your personal tastes; it can be more expensive than other hair choices but owns more durability and life. The price of human hair and the required maintenance could create some purchase drawbacks but the investment is worth it.

WIGS-Synthetic Hair

In recent years the technological advances of synthetic hair has come a very long way. The texture of such in most units have a human like feel. Synthetic hair can often be worn with little to no styling as the fibers have a memory wave, curl and volume that allows the hair to snap back into place with little to no effort. Even-though synthetic hair offers versatility and ease of wear, styling is often limited with little to no heat friendly durability.

Cap Constructions

Hand-Tied

- Creates natural movement
- The hair is hand-tied into the base of the cap during a process called ventilating
- Ideal for sensitive scalp and hair-loss

Monofilament

- Creates the illusion of natural hair growth from the scalp at the scalp part.
- Hair is hand-tied at the sheer (not to the cap) base.
- Allows hair parting for styling versatility.

Lace Front

- Creates the illusions of a natural looking front hairline
- Allows for away from the face hair staying
- Most are ready-to-wear
- Temple to temple wear

Basic Cap

- Includes both capless and traditional constructions
- Most durable and affordable
- Open weft for ease of ventilation
- Gives natural lift and volume at the crown
